MANN HOUSE

A THRESHOLD TO RECOVERY

Counseling, Group Therapy, Relapse Prevention & More.

The Mann House, established in 1971, is a long-term residential facility dedicated to providing a drug-free environment for the treatment and recovery of chronic-relapsing male clients.

Our approach is to deal with the total person through counseling, peer involvement, and a support network both in the Mann House and in the community.

We specialize in those men who are repeatedly reluctant to recover. Most of our clients have already made numerous attempts at sobriety and failed.

The structure of our program helps recovery become second nature.
